X	Y	Z	W	P
1	244	A	I	W
2	231	B	J	X
1	534	A	K	Y
3	988	C	I	Z

Question 1: Consider a relation schema R(X Y Z W P) is decomposed into R1(X Y Z) and R2(Z W P). determine whether the above R1 and R2 are Lossless or Lossy?

Question 2: Consider a relation schema R(X Y Z W P) (above table R) is decomposed into R1(X Y) and R2(Z W). determine whether the above R1 and R2 are Lossless or Lossy?

Question 3: Consider a relation schema R(X Y Z W P) (above table R) is decomposed into R1(X Y Z) and R2(W P), determine whether the above R1 and R2 are Lossless or Lossy?

Question 4: Consider a relation schema R(X Y Z W P) (above table R) is decomposed into R1(X Y Z W) and R2(W P). determine whether the above R1 and R2 are Lossless or Lossy?
